

Earthwize Delights

News & views from Earthwize Farms CSA April 16, 2010

Farmers as busy as bees

Happy new CSA year! This note is now called Earthwize Delights, better expressing our goal: delighting you with our food, eggs, locavore products and service. We hope you agree!

The farm is a very busy place in springtime. We've just planted our 4th field- almost as many as all of last year- and continue planting old and new fruits, vegetables and herbs. The bees are no exception- they're all over our plantings and the fallow areas, pollinating the plants while they gather food for their babies. Though we brought them in late last Summer they already need more space, so next weekend we're adding on to the hives.

We're so glad to have you with us as we grow and gather all the tasty, healthful food and sundries. We're looking forward to a great year together, with more produce varieties, more eggs, and more delights of all sorts as the year goes on!

Shares get even better

Simpler options, lower prices, full pay bonus

A new year means it's time to renew all CSA agreements. We simplified the share options and put the whole year on one form. Prices for full year paid food shares and all egg shares are lower, and we kept the rest very close to this year's rates. And, the Early Bird Bonus is better than ever: **Full Year payment by April 17 gets a free, like-sized gift share!**

The form sent at the end of last season had a slight pricing error for quarter pay half shares. Please use the form you got today or get one

Your CSA share

This Spring delivery is #1 in the 2010-11 CSA year. Egg sharers get eggs; Regular & odd-week sharers get:

- Spring salad mix
- Spring onions
- Strawberries
- Dill weed
- Parsley
- Baby turnips w/ turnip greens
- Red creamer potatoes
- Green cabbage
- Kale
